Description

Latin Name : Coriandrum Sativum Part Of Plant Used : Seed Source : Russia Extraction Method : Steam Distillation The health benefits of coriander essential oil can be attributed to its properties as an analgesic, aphrodisiac, antispasmodic, carminative, depurative, deodorant, digestive, fungicidal, lipolytic, stimulant, and stomachic substance. Coriander Essential Oil can make your married life heavenly. It arouses and increases the libido, as well as cures temporary impotency, frigidity of both males and females, erectile dysfunctions, and general loss of interest in sex. People who are fed up with trying all possible methods to lose weight need to pay attention to this property of cilantro essential oil. It promotes lipolysis, which means hydrolysis of lipids, which in turn means hydrolysis or breaking down of fats and cholesterol. The faster the lipolysis, the faster you get slim and lose weight. Coriander also relieves nervous cramps, convulsions, and generally relaxes your body and mind. It also stimulates and warms up the organ systems and various functions going on inside the body. It stimulates hormone and enzymes secretions, digestion, excretion, brain functions and nervous system activity. It also fights depression and boosts your spirits.
