Short Description

The “friendly bacteria” found in your gut, probiotics play an important role in digestion and are often found in yoghurt, but more recently as a very popular class of food supplement. Lindens Pro Bio Live Max Capsules contain 6 billion viable bacteria units each, helping you support your gut flora, all within a vegetarian capsule.

Description

- 6 BILLION CFU strength
- “Friendly” probiotic bacteria support digestion
- Convenient way to boost your gut
- Easy swallow one-a-day vegetarian capsule

Known as “friendly bacteria”, lactobacillus acidophilus is what is known as probiotic bacteria. These bacteria play an important role in healthy digestion, helping break down food as it passes through the gut, but can often be depleted, particularly after courses of antibiotics. Often found in probiotic yoghurts, live cultures of lactobacillus acidophilus can help you support your gut flora, the “friendly bacteria” that help you get the best out of your food.

One of our bestsellers, Lindens Pro Bio Live Max Capsules are a truly convenient way to support your digestion. With each vegetarian-friendly capsule boasting 6 billion viable bacteria, each capable of multiplying within your gut to boost your gut flora further, Lindens Pro Bio Live Max is high-strength and great value.
