- Digestive aid

Ginger is a perennial plant that grows in India, China, Mexico, and a few other countries. The rhizome (underground stem) is used as both a spice and in herbal medicine.

The warming properties of Ginger have been enjoyed for centuries and are known to aid digestion as they can have a settling effect on the system. Ginger is also often used alongside products in our joint care range such as glucosamine or chondroitin.

With Lindens®, you can expect:

- ? An established UK manufacturer based in Yorkshire
- ? ISO 9001 Certified for Quality Management Systems
- ? Dedication to excellence, innovation and satisfaction
- ? Resealable, light-proof, foil-fresh pouch packaging
- ? The Lindens® label: your guarantee of authenticity
